RECYCLED RENEW TECHNO

Renew Techno is 100% recycled from plastic bottles. Renew Techno is made of a yarn derived from post industrial and post consumer waste materials, such as bottles and films, offering the same features of virgin polyester.

Renew Techno is compact, non-see-through, strong, with a pleasant hand feel and ensures the right muscular support during exercise, making it ideal for activewear and fitness items, especially leggings. Renew Techno is also very good for printing.

SUBLIMATION TEST RESULTS	
LENGTH %	2 %
WIDTH%	2 %

Sublimation bases can react differently from machine to machine. Please ensure you test each fabric as a variation may occur due to machine settings and paper variation. Recommended sublimation procedure:

- 40 seconds
- 195-205 degrees
- No higher than 205

NOTE: 3-4% Shrinkage is deemed acceptable depending on the fabric type and knit construction.
