

FEATURES AND BENEFITS

- Exceptional wear and durability in chlorinated water
- Superior fit, freedom of movement and comfort
- Fast drying time
- Optimum breathability
- Soft handle and pleasant on the skin
- Sublimation print base
- Premium quality Carvico product

SUGGESTED APPLICATIONS

- Sublimation base
- Club swimwear
- Performance swimwear
- Water aerobics swimwear
- Swimwear exposed to high levels of chlorine

AQUALIFE POLYESTER PBT SUBLIMATION

Aqualife sublimation base is designed for multiple uses in swimming, water sports, cycling and running. This exceptional new age fabric offers a breakthrough in Chlorine proof swimwear, through providing the ultimate Chlorine resistance without compromising on elasticity and wearability. It also guarantees excellent protection from UV rays.

It is perfectly suited for water sports as it dries quickly, is pleasant to wear, and prolonged contact with Chlorine does not cause Aqualife to lose its elasticity, which frequently occurs in classic elastane fabrics. Aqualife creates a crisp clean printed finish.

PRODUCT SPECIFICATIONS

Composition:
47% Polybutylene terephthalate (PBT), 53% Polyester

Weight:
170gsm +/- 5%

Width:
160cm +/- 2%

Printable Width:
150cm +/- 5%

SUBLIMATION TEST RESULTS	
LENGTH %	2%
WIDTH%	2%

Sublimation bases can react differently from machine to machine. Please ensure you test each fabric as a variation may occur due to machine settings and paper variation. Recommended sublimation procedure:

- 40 seconds
- 195-205 degrees
- No higher than 205

NOTE: 3-4% Shrinkage is deemed acceptable depending on the fabric type and knit construction.
