

FEATURES AND BENEFITS

- Recycled Polyester
- Global Recycled Standard Certified
- Eco-Friendly
- High Performance
- Supportive
- Chlorine Resistant
- Great Shape and Retention
- Muscle Control

SUGGESTED APPLICATIONS

- Sublimation base
- Active Sports
- Swimwear
- Dancewear

RECYCLED ECO POLYESTER

Recycled Eco Polyester has been developed using an eco-friendly GRS Certified green fiber to assist where we can in addressing the excess waste issues that we are facing in the world today.

The Polyester fiber is made from the recycling of discarded single use bottles that were destined for landfill.

Our warp knit Recycled Eco Polyester has also been constructed with a high performance end use in mind. The combination of its tight knit structure along with high elastane content not only gives you full coverage but also fantastic support, chlorine resistance, shape and retention.

Our Recycled Eco Polyester fabric refers to the 3R Environmental Demands: Reduce / Reuse / Recycle....

PRODUCT SPECIFICATIONS

Composition:
73% Recycled Polyester, 27% Elastane

Weight:
250gsm +/- 5%

Width:
150cm +/- 5%

Printable Width:
145cm +/- 5%

SUBLIMATION TEST RESULTS	
LENGTH %	3%
WIDTH%	2%

Sublimation bases can react differently from machine to machine. Please ensure you test each fabric as a variation may occur due to machine settings and paper variation. Recommended sublimation procedure:

- 40 seconds
- 195-205 degrees
- No higher than 205

NOTE: 3-4% Shrinkage is deemed acceptable depending on the fabric type and knit construction.
